

Impact Report 2023

Harlem - New York City

A Growing Church

Our Church, Cultivate NYC, turned 1 in September, the Lord has been adding family after family, and we have seen the church double in size!

In October we finally moved into a local Public School for Sunday Service.

A Community Engaged

Throughout the year, we have consistently engaged our community for the Gospel. Besides our regular weekly outreaches, we had almost 700 people at our two block parties and gave away over 130 bookbags at our back-to-school event.

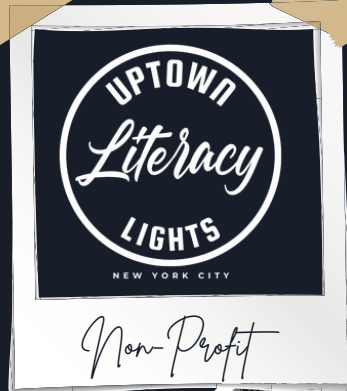

A Growing Moms Study

As our church grows, so does the Moms Bible Study. Jessica has seen the group grow significantly. In addition, the number of women Jessica gets to counsel on a regular basis has doubled from 5 to over 10!

A Non-Profit started

Our non-profit organization, "Uptown Literacy Lights," is incorporated and running. We are excited to see God use it to teach holistic Literacy skills to underserved families in our community.
